

## Mag Charger® LED Rechargeable System

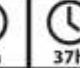

With the familiar “QuickClik™” system users can, within the “General” function set, choose Full Power (643 Lumens); Low Power (148 Lumens); or Eco Mode - Featuring improved recharging efficiency and a super power saving mode that yields up to 66 lumens with greatly extended run-time. There are three additional function sets Outdoor; Law Enforcement; and Military each offering a different set of functions invoked in a different sequence, for quickest access to the functions the particular user prefers. The IMPROVED, faster-handling “Quick Focus™” system now adjusts from spot to flood with about a ¼ turn of the head.
